- l. I just can't squeeze a trip to Europe for exercise POST OAK into my schedule.
- 2. I'd like to wait until about ten days before the exercise and then send a rather brief message to Dutch Huyser. I'd simply like to say: I'm delighted we're going to use national intelligence assets for tactical purposes in this exercise; I've asked Lieutenant and your two people to represent me at this exercise and to bring back to me a report of what we can be doing better in the future; I'll appreciate any suggestions he may have before or after the exercise as to what we can better do to utilize these national assets in behalf of the tactical commanders.
 - 3. All portions of this memorandum are classified Confidential.
